

Before

Finding Purpose in Forex Trading

Phil Kimpton, a military veteran turned IT professional, was on a journey to create additional income streams after leaving the military in 2015. After finding interest in Forex he was soon frustrated with untrustworthy characters in the trading world, so Phil decided to build a trustworthy community through Automation Trading Mastery. He aimed to provide a genuine platform for individuals seeking financial independence through Forex trading.

Phil's approach emphasized transparency and independence. Unlike scammers, he focused on teaching individuals how to navigate the Forex market autonomously without relying on someone else to manage their funds.

Why Forex?

Forex trading, also known as foreign exchange or currency trading, involves buying and selling currencies on the global market. It operates 24 hours a day, five days a week, making it the largest and most liquid financial market globally, with daily trading volumes exceeding trillions of dollars.

Participants, including banks, brokers, and individual traders, speculate on the value of one currency against another. The goal is to profit from fluctuations in exchange rates by analyzing economic indicators, political events, and market trends. While Forex trading offers significant profit potential, it also comes with risks, especially considering the highly leveraged nature of the market.

Results

Consistent Profits through Automated Trading

Phil's results speak volumes about the effectiveness of his approach to Forex trading. The automated system he developed consistently delivers an average of 10% monthly profits. He shared his own experience of creating an automated Forex trading system that made steady and consistent profits and allowed him to achieve financial independence at the age of 40.

When Peter from Burns Funding was introduced to the potential passive income stream presented by Phil at Automation Trading Mastery, he was blown away by the promising numbers. Phil demonstrated the viability of the investment through various scenarios, providing detailed financial projections.

To illustrate the potential returns, he provided examples based on different scenarios:

Scenario 1:

Loan Amount:

\$300,000.00

Capital Invested:

\$150,000.00

Estimated Return:

12%

Management Percentage:

30%

Management Fee:

\$5,400.00

Burns Funding Profit:

\$12,600.00

Loan Payment:

\$9,000.00

Phil showcased a robust opportunity with a 12% estimated return on a \$300,000.00 loan. After deducting the management fee and loan payment.

Scenario 2:

Capital Invested:

\$150,000.00

Estimated Return:

9%

Management Percentage:

30%

Management Fee:

\$4,050.00

Burns Funding Profit:

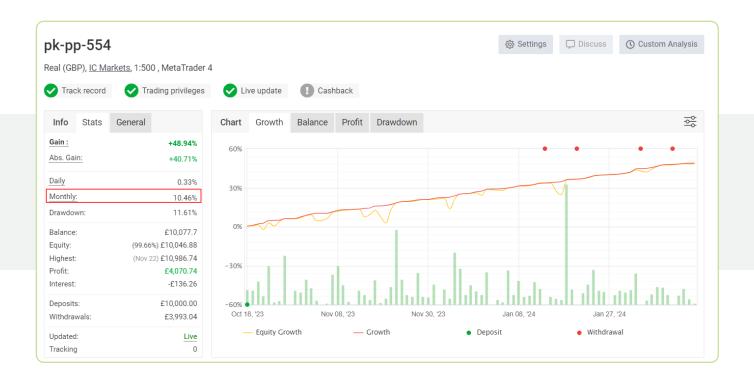

\$9,450.00

Loan Payment:

\$9,000.00

In the second scenario, Phil presented a slightly conservative estimate of a 9% return.

Scenario 3:

Loan Amount: Management Fee:

\$300,000.00 \$3,870.00

Capital Invested: Burns Funding Profit:

\$150,000.00 \$9,030.00

Estimated Return: Loan Payment:

8.60% \$9,000.00

Management Percentage:

30%

In the third scenario, Phil demonstrated the feasibility of an 8.60% estimated return.

After reviewing these scenarios, Peter recognized the solid financial opportunities presented by Phil's automated Forex trading system. The transparent and detailed nature of the projections left Peter with a clear understanding of this passive income stream's potential profitability and stability. It laid the foundation for a partnership between Burns Funding and Automation Trading Mastery, highlighting the potential benefits for both parties involved.

Phil's consistent profits and a transparent teaching approach make Automation Trading Mastery an attractive option for individuals seeking a reliable and sustainable passive income stream through Forex trading.
